

Information Document on the Conceptual Foundations of GenerationenRaum and the SpielRaum Daycares

Dear Parents,

we are very pleased that you have chosen to have your child (or children) cared for, educated and supported in our daycares. In this context, you are surely interested in the conceptual foundations on which we work in our SpielRaum daycares.

We work according to the Berlin Educational Program (Berliner Bildungsprogramm Berliner Bildungsprogramm (BBP)). If you would like to read the Berlin Educational Program, you can find the complete version online (also available in English).

As a daycare provider, we also have a mission statement that sets out the values and goals we stand for in our organization, which we strive for and work toward. We have an organization-wide pedagogical framework concept. In line with this, all our daycares also have their own concept that is regularly extended, adapted, and optimized. The daycares continue developing this themselves, and you are welcome at any time to read the concept and ask questions about it. The concept describes how we work in our daycares in everyday educational practice and our position on certain topics (e.g. participation in the daycare or sexual education). You can find this and further information about the daycares and our organization in our "Wiki". This is an information platform where you can learn a lot about our company and our daycares. Here you will also find the Parents' ABC (Frequently Asked Questions).

Feel free to look around and give us feedback if you have comments or questions about our "Wiki". Please enter this address to reach our "Wiki": www.generationenraum.de/wiki
